

26-12.

PTR HARTMANN

A Phoenix Mecano Company

- Single- or two-pole design
- 20.000 cycles
- Material acc. UL 94 V0
- Operation mode: impulse

This switch can be exchanged for an SMT-switch type 26-62 without changing the front-panel layout. The mechanical fixation on the PCB is done by a plastic fixation peg or a solderable metal peg. Special designs on request.
